Diarrhea and enteritis (2 years and over).....	1
Icterus, grave .....	1
 Total .....	13

Annual rate of mortality for the week 15.75 per 1,000. Estimated population, 43,000.

## EGYPT.

*Cholera report—Conditions improving.*

WASHINGTON, D. C., October 6, 1902.

SIR: I have the honor to inform you that a telegram dated October 4, 1902, has been received from the vice consul-general in charge at Cairo in regard to the epidemic of cholera in Egypt in the following words: "Since September 28, 2,114 cases cholera, all Egypt; 2,136 deaths. Conditions continue to improve rapidly."

Respectfully,

JOHN HAY,  
*Secretary of State.*

The SECRETARY OF THE TREASURY.

*Cholera in Suez.*

SUEZ, EGYPT, September 16, 1902.

SIR: I have the honor to report that Suez, which is 3 miles distant from Port Tewfik (where this consular agency is situated), and which until a few days ago had enjoyed a remarkable immunity from cholera, has at last become infected, several cases having occurred during the past six days. The nonofficial report of cases in Suez town during the last six days amounts to over 20, of which 16 died.

Port Tewfik, the seaport of Suez, is quite free and perhaps the only town in Egypt that is so, probably owing to its inhabitants being mostly Europeans.

The cholera was introduced into Suez by a Greek from Ismailia, who communicated it to an Italian and an Arab, after which it spread with its usual rapidity, until the sanitary authorities were able to isolate the patients in a special hospital for infectious diseases, 1 mile distant from the town. The usual disinfection and lime washing has been carefully observed in all infected habitations, and the patients removed at once to the special hospital.

The sanitary authorities have the disease well in hand now, and it is hoped that it may be stamped out shortly, owing to the isolated position of Suez, which is separated from Ismailia and other parts of the country by a large tract of desert 43 miles long.

Respectfully,

ALFRED W. HAYDEN,

*United States Consular Agent.*

The ASSISTANT SECRETARY OF STATE.
